Winter's story begins in December 2005, when she was found entangled in a crab trap off the coast of Florida. The injury to her tail was severe, requiring amputation. What followed was a remarkable series of events that would forever change the lives of Winter, her caregivers, and countless others.

Enter Mike Smylie, a dedicated marine biologist at the Clearwater Marine Aquarium. Recognizing Winter's potential for recovery, he refused to give up on her. With the help of Kevin Carroll, a compassionate prosthetist, they embarked on a groundbreaking mission to create a prosthetic tail for Winter, a feat never before attempted on a dolphin.

The process was long and challenging, requiring countless hours of research, experimentation, and innovation. But throughout it all, Winter's indomitable spirit shone through. Her unwavering determination to swim and play despite her disability inspired everyone around her.

Finally, in 2007, Winter received her custom-made prosthetic tail. The moment she slipped it on and surged through the water was both exhilarating and awe-inspiring. It was a testament to the power of human ingenuity and the unquenchable spirit of living creatures.

Winter's recovery and triumph gained widespread attention, captivating the hearts of millions. She became a symbol of hope for people with disabilities and a reminder that anything is possible with determination and support.
